A LITTLE ABOUT ME

Aleena leads all design projects and is a central figure in all client relationships. Whether it's a residential or commercial project, getting to know clients, understanding their needs and preferences, winning their trust and collaborating with them is at the heart of Aleena's work; and it's something she finds particularly rewarding.

Of course, no two clients have the same lives, tastes or dreams, just as no two interiors have the same light, proportions, history or personality. Each and every client is different; and so, too, is each and every space. Aleena's interiors therefore differ markedly from one another. However, they all reflect her personal aesthetic: her predilection for light, air and space; her pursuit of both simplicity and refinement; her emphasis not only on restraint but also on softness; and the importance she attaches to materials and to texture.
